DeMave Picked to Defeat Rawson Tonight at Arena

VISITOR IS A-8 CHOICE TO WIN

By JACK CONWAY
JACK DeMave, Jersey Thunderbolt, is picked by the wise men to halt the victory surge of Larry (Big Boy) Rawson in their immortal bout at the Boston Arena tonight. The odds are 10 to 8 on DeMave.

UPPER BACK, WILL PLAY FOR HARVARD AGAINST FLORIDA SATURDAY

UNDISMAYED by the mauling which his Crimson team received on Saturday, Arnie Harrowan called a sheepish Harvard squad back to work today. The squad appeared to have suffered no serious injuries from the Dartmouth scalpings. However, most of the Central players were still and sore.

While Harrowan appeared to be in a pessimistic mood, the practice field at Soldier Field was a scene of activity. The Harvard players were seen to be in good shape, and were expected to play for Harvard against Florida on Saturday.

THINK FIGHTER Walker is one

of the greatest fighters of the game. He is the nearest approach to Harry Grey I ever saw. He is a very strong fighter, and has a very good record. He is a very dangerous opponent, and Walker will have to be on his guard.

Walker has been knocked out in 23 of his last 21 bouts. His collecting hands has wrecked Joe Monte and Bob Mills and killed other steady opposition.

Rawson has won most of his

bouts inside of three rounds. He has won his last 10 fights, and is now on a winning streak. He has fought with Jack Sharkey, who is now on a losing streak, and has beaten him. He has also fought with Henry Jack, who is now on a losing streak, and has beaten him. He has also fought with other big name opponents, and has never been defeated.

The greatest threat to Rawson's victory is Larry (Big Boy) Rawson. Rawson is a powerful fighter, and has won his last 10 fights. He is a very strong fighter, and has a very good record. He is a very dangerous opponent, and Rawson will have to be on his guard.

Rawson's inexperience over the

last bout is what has caused the speculative element to ring along with DeMave. They figure that the Jersey Thunderbolt will have enough ring wisdom to get to the first three rounds no matter how many punches Rawson lets loose, and that after that DeMave will wear Big Boy down.

Rawson has been knocked out in 23 of his last 21 bouts. His collecting hands has wrecked Joe Monte and Bob Mills and killed other steady opposition.

RAWSON realizes that DeMave

will have the advantage in the first round. He is confident that there's a K. O. there for DeMave, whom he battles in the feature bout at the Arena tonight.

Rawson has been knocked out in 23 of his last 21 bouts. His collecting hands has wrecked Joe Monte and Bob Mills and killed other steady opposition.

"I'll be able to hit DeMave"

said Rawson today, "and I can afford any fight." He is confident that there's a K. O. there for DeMave, whom he battles in the feature bout at the Arena tonight.

Romance in Which Love Scores Triumph

From Dale Van Every a story, starring Marion Davies in her first all-talking, all-singing motion picture, produced by Metro-Goldwyn-Mayer.

CHAPTER 15
OVER the bobbing heads of the crowd, Marianne's eyes met Steve's. His misery was in his gray eyes, which looked into the heart of hers. He was as pale as death, and his hands were shaking. She felt her foot against his, and she knew that he was in such an up-and-down state of mind that he would do anything to get out of there. She felt a sudden impulse to run to him, to take his hand, to tell him that she was still in the heart of the storm, still in the heart of the struggle, still in the heart of the fight. But she knew that she could not do that. She knew that she must wait, and she knew that she must wait for him to come to her. She knew that she must wait for him to come to her, and she knew that she must wait for him to come to her.

A YOUNG girl writes asking how she "can get charm."

Most of us have heard the old saw to that effect. But the sure-fire recipe for charm is as simple as we have heard. It is to be genuine. Success in life, says the citizen, depends on the ability to handle his fellow man. And this is not necessary to be a hammer and plough wren. It is to be a human being. Elsie Robinson was all bent about the charm, plenty and prout. But how are we going to get it? The answer is to be an advertiser for it by the bottle. We can't learn it—though plenty of quacks it in six volumes with a picture of a bottle. Do tricks of the camera? Does Intention—posture—a roll of the eye—a tilt of the nose—a certain gesture—has an influence on people? or a charming word for poetry make one good? Would a better complexion—prettier clothes—mean "line"? No. These things may be difficult in themselves, but their making is not. It is to be LONG AS THEY REMAIN PURELY PERSONAL. DECORATIONS are the things that are dressing up or acting up—things that are not in the

MARION DAVIES

Marianne

The screen's FIRST comedienne
brings to the talking films her
superlative talents in song and
dance and merriment—

IT is doubly delightful news to those countless admirers of Miss Davies' rare comic genius that her first talking appearance is in a production destined to rank among the greatest of the audible films. Miss Davies appears in a musical comedy romance set in France during the days following the armistice. There's a gayety and infectious merriment about the production that is entirely captivating; and what with screamingly funny situations and a host of winning song hits, merry Marion in marvelous "Marianne" is on its way to a fame accorded few offerings of stage or screen.

THE WORLD OF FINANCE

REPOSSESSION HANDICAP ATTACKED

New York, Oct. 26.—Reduction of the "repealment" holding in two installment firms to their absolute minimum was announced today by the Federal Reserve Bank of New York Industrial Finance Corporation, one of the major benefits arising from the corporation's new national chain of consumer credit banks.

The new plan calls for a reduction which has for the nucleus multiple banks and companies, the Federal Reserve Bank of New York, its wide range of activities including installment financing of a dozen banks, investment insurance and other offices and a number of other banks.

The industrial financing, Mr. Morris said, will be made available to the consumer under the new regional system for the first time.

History, has brought a number of improvements to the installment plan, but the Federal Reserve Bank says many of the troublesome repeating difficulties which have been the cause of financial distress have been solved.

CONVERTIBLE ROADS LOWER

New York, Oct. 28 (AP)—Bonds were fairly strong in trading today and considerable activity appeared throughout the list of domestic corporation issues, especially the rails.

Heavy liquidation of stock was accompanied by some drastic declines in convertibles. International Telephone 4½% sold off about 17 points and American Telephone 4½% lost more than 13 as the shares dropped. American International 5½%, Commercial Investment Trust 5½%, Atchison 4½%, Reading Coal and Iron 3 and Texas

Numerous low coupon carrier obligations developed strength on investment buying. Pennsylvania is gained 2 points, Chicago, St. Louis & New Orleans, Memphis Division, 4, moved up 3 and Cleveland, Cincinnati Chicago & St.

Fractional advances appeared in Baltimore & Ohio 4s and refunding 5s, Rock Island 3s, Missouri Pacific 5s, Lehigh Valley of Pennsylvania 4 1/2s and Northern Pa-

Utilities and industrials were steady to slightly higher. American Telephone debenture 5s, New York Telephone 6s and North American 5½s sold up in the former group, while International Cement 5s, International Paper 6s and a few other industrial obligations improved nominally.

Trading in U. S. Government and foreign securities were quiet and price variations were small in the earlier dealings. French Republic's were a feature, rising nearly a point on limited dealings.

Deliveries Larger

Gatineau Power Co., controlled by International Paper & Power Co., has commenced delivery of an additional 20,000 kw. of power from the International Hydro-Electric System.

This quantity of power, originally scheduled for delivery on October 1 of next year, increases to 22,000 horsepower the total now being delivered by the Gathenau Power Co. to the commission.

OUTLOOK FOR STEEL PROFIT IS GOOD

Present estimates are that total earnings of United States Steel for 1976 will be \$57,000,000. Assuming 850,000,000 shares outstanding, that would be \$67¢ per share. The same 1976 earnings would be \$1.18 per share if the company had 570,000,000 shares outstanding. If the balance of the balance sheet is about the same as it is presently, there would be \$1.18 per share available for dividends on preferred and common stock. If the balance sheet is \$94,500 for preferred dividends, the balance available for the common stock would be \$1.18 per share. If \$5,827 junior shares outstanding in September 1976 are included, the third quarter net income was \$30,525,943, or \$66.6 a share on 458,250,000 shares. If the \$5,827 share on \$300,250 share entitled to participate in the dividend is included, the third quarter net income was \$29,858,250 or \$64.3 a share on 464,375 shares on 7,116,253 common shares.

If the third quarter comes up close to the third quarter of 1975, the next nine months will be between \$1.18 and \$1.35 per share. If the annual reduction would bring net income to between \$14,000,000 and \$15,000,000, the next nine months would be between \$1.18 and \$1.35 a share on 8,500,000 shares. If the next nine months would bring net income to between \$14,000,000 and \$15,000,000, the next nine months would be between \$1.18 and \$1.35 a share on 8,500,000 shares.

In first nine months of 1973 total net income was \$77,086,085, or \$11.4 a share on 6,750,000 shares common.

Vote 'Yes' on Schoolhouse Referendum

The future of Boston's public school system and the welfare of Boston's public school pupils will be in the hands of the voters one week from tomorrow.

On the Boston ballot will appear a referendum question in the bill to abolish the present Boston Schoolhouse Commission and to establish in its place a board of three unpaid commissioners of school buildings and a department of school buildings.

The commissioners would be appointed, one by the Mayor, one by the School Committee and one by the two so chosen, or by the Governor if the third is not agreed upon within 90 days.

The commissioners would elect a superintendent of construction who would head the department of school buildings. In such manner, the official in charge of construction of schoolhouses would be placed as far as possible from political pressure exerted upon elected officials.

A majority vote in the affirmative on the referendum will change the system under which Boston schoolhouses have been constructed, altered and repaired since 1901.

The Survey Committee of the Boston Public Schools, whose members include A. Lawrence Lowell, Judge Michael H. Sullivan, Walter P. Downey, Carl Dreyfus, and other respected and unbiased citizens, found both delay and waste in the construction of school buildings under the Boston Schoolhouse Commission.

"So long as the present system prevails, waste and delay will continue," reported the Survey Committee.

The referendum will appear in the following form: "Shall an act passed by the General Court in the year 1929 entitled, 'An act to establish a board of commissioners of school buildings and a department of school buildings in the city of Boston,' be accepted?"

Vote, "Yes," for the future of Boston's school system and the welfare of her children.

One Solution

As Used as Volstead's
Prohibition, 1929

PROHIBITIONISTS show a regrettable lack of imagination. They assume that the average person would rather dry up than break them.

There is reason to think that this is a fallacy and that to dry up America new tactics are needed.

Why not therefore repeal the Eighteenth Amendment substitute a law to make drinking COMPULSORY?

A large class of our population would find keen pleasure in drinking it.

One can picture carousers of bootlegging gingerale mangled up Boston Harbor.

Thousands of citizens speaking into megaphones for the tip of a champagne glass.

Hip daddies of strawberry soda.

Supercitizens fruit cocktails.

Crimes of passion inspired by pop.

Anyway, it would be a noble experiment. Prohibitionists should think it over. It might work.

Big Fishing Little Fish

The fisherman exclaims, "A wow!"
"Just watch me pull 'em in, and how!"
With mighty hook and rod to match,
He childishly displays his "catch."

But whereof all this great to-do.
This boasting and this ballyhoo?
Compared with uncaught fish, the "haul"
Is insignificantly small.
